FOR IMMEDIATE RELEASE

Responsive Respiratory Introduces New Line of Resuscitator Products

St. Louis, Missouri – October 25, 2017 – Responsive Respiratory expands oxygen offering to include new line of Resuscitator Kits and Accessories.

RRI's new resuscitation products include both individual supplies and all-in-one kits for necessary for the management of emergency airways in breathing and cardiac emergencies. The kits are available with and without portable oxygen cylinders in both demand valve and manual resuscitator bag set-ups. The emergency oxygen solutions may also be purchased in combination with single cylinder carts and lightweight, durable first responder bags.

"The new line of resuscitator kits is targeted to our growing Emergency Services Market and offering," explains Tom Bannon, Responsive Respiratory President. "The inclusion of solutions for emergency airways is a natural fit with our full line of oxygen delivery products."

The resuscitator kits join RRI's offering of EMS, Hospital, and Home Care regulators and their full line of ambulatory oxygen equipment and accessories. All products are stocked and ready for immediate shipment from the central US warehouse.

About Responsive Respiratory: - Responsive Respiratory was founded in 2002 and is dedicated to providing high quality respiratory products for the home health care, medical, EMS and industrial markets. RRI's comprehensive line of high pressure oxygen products include: oxygen conservers, regulators, cylinder carts & racks and carry cases.
