FOR IMMEDIATE RELEASE

Responsive Respiratory Launches New Oxygen Solutions Catalog

St. Louis, Missouri – January 23, 2018 – Responsive Respiratory introduces an updated oxygen products catalog for 2018.

The comprehensive oxygen catalog highlights RRI's commitment to high pressure oxygen products and includes new products such as DOT compliant multi-cylinder racks, an expanded line of home filling products and more. "We've expanded our offering for 2018 with newly designed cylinder transport and storage solutions," explains Tom Bannon, Responsive Respiratory President. "This catalog highlights the growth of this core product area for RRI, specifically the DOT compliant offering. RRI continues to be a market leader in the design and manufacture of transport and storage solutions for oxygen cylinders."

RRI's 2018 catalog also showcases the addition of a number of new products and categories for the new year. "We are continually monitoring the needs of Providers in the marketplace to ensure we are meeting and exceeding the needs of our customers," notes Bannon. "RRI has broadened its offering of products available for home filling and added a new line of resuscitation kits in response to ongoing dialogue with our customers. These items are showcased in the newly published product catalog."

The full color home healthcare catalog is available by request in both electronic and print format.

About Responsive Respiratory: - Responsive Respiratory was founded in 2002 and is dedicated to providing high quality respiratory products for the home health care, medical, EMS and industrial markets. RRI's comprehensive line of high pressure oxygen products include: oxygen conservers, regulators, cylinder carts & racks and carry cases.
